

CAPABILITY STATEMENT

Logistics Without Resistance

CORE COMPETENCIES

Terminal Velocity Logistics LLC (TVL) provides disciplined, high-impact logistics and operational support. Led by a seasoned Army veteran, we apply mission-tested strategies to reduce friction in supply chains and ensure results where the tactical meets the practical.

- **Logistics & Management Consulting:** Workflow optimization, bottleneck analysis, and activefee process improvement.
- **Property Accountability & Audit Readiness:** 100% property accountability, key control programs, and FLIPL investigation management.
- **Administrative & Personnel Support:** Administrative surge support, records management, and asset lifecycle transactions.
- **Secure Logistics & Tactical Prep:** Munitions oversight, hazardous materials transport planning, and DLA turn-in disposition.
- **Operational Documentation:** Creating localized procurement procedures and cross-functional Standard Operating Procedures (SOPs).

FUNCTIONAL EXPERIENCE

Strategic Procurement Optimization – Liason to U.S. Army / U.S. Airforce / Department of Defense / Pentagon

- **Context:** While serving in a key logistics leadership role, our Principal identified a critical ammunition shortage caused by a bloated, multi-step procurement process.
- **Action:** Bypassed traditional friction points by directly coordinating between the Installation Contracting Office and the Pentagon (Air Force).
- **Impact:** Eliminated hundreds of wasted man-hours in storage and reshipping; established a direct-request model that ensured immediate mission readiness.

DIFFERENTIATORS

- **Key Personnel Expertise:** Our leadership brings years of direct U.S. Army logistics experience, managing multi-million dollar asset portfolios and complex supply chains.
- **BLUF Mindset:** We provide the “Bottom Line Up Front.” We value your time and prioritize clarity and speed in every communication.
- **Veteran-Disciplined Execution:** We apply military-grade SOPs to commercial and federal logistics hurdles to ensure 100% accountability.
- **Efficiency-Focused:** We specialize in identifying and removing redundant steps in the supply chain to save the government time and reduce man-hour waste.
